MOUNTAIN HARVEST

PINE POLLEN EXTRACT

CLINICAL GRADE 10:1 CONCENTRATION

Leveraging our long standing relationships with suppliers and working with a forest conservancy co-operative, we are proud to offer our customers this Pine Pollen Extract.

Mountain Harvest Pine Pollen Extract is a clinical grade, full-spectrum, ten times concentrated extract. Pine Pollen has been used historically as a foundational food and as a restorative tonic, supporting full body health.

KEY BENEFITS

- RAW Pine Pollen extracted ten times (10:1).
- Pine Pollen Extract is produced using a dual stage, hydroethanolic hot water extraction process.
- Wild harvested exclusively from remote, high-elevation pine forests, and exclusively from the potent *Pinus massoniana* pine tree.
- Harvested at the peak of potency, within a 3-day period once a year, and lightly processed to increase digestibility.
- Packaged and processed in the USA in a certified organic, FDA cGMP facility.
- Pine Pollen may help restore healthy, vital levels of testosterone.

USE & INGREDIENTS

Our Mountain Harvest Pine Pollen Powdered Extract is ready to use. Suggested dosage is 2 capsules, taken twice daily or as otherwise directed. For best results, take on an empty stomach (when timing permits).

Each bottle contains 120 capsules of our Mountain Harvest Pine Pollen Powdered Extract. Never irradiated and with no fillers or drying agents, you receive RAW Pine Pollen of the highest quality and integrity from RAW Forest Foods.
