MOUNTAIN HARVEST

ROYAL PINE POLLEN

CLINICAL GRADE TINCTURE

This is a propitiatory, clinical grade true dual extract of fresh, RAW Pine Pollen. We make our Mountain Harvest Pine Pollen Tincture as potent as possible, resulting in a clinical grade, 1:2 extract.

Our Pine Pollen Tincture is especially cherished by customers looking to gain the phyto-androgens (androstenedione, androsterone, dehydroepiandrosterone (DHEA), and testosterone) that are present in Pine Pollen. Pine Pollen Tincture is used to increase the levels of male sex hormones and help increase and balance levels of testosterone to estrogen.

KEY BENEFITS

- Our Royal Pine Pollen Tincture is the strongest Pine Pollen Tincture available;
- The potent 1:2 extract delivers an equivalent of 1 gram of RAW Pine Pollen per serving;
- From our exclusive Mountain Harvest Pine Pollen collection;
- Alcohol suspended extract offers quick absorption and maximum effect;
- Made exclusively by RAW Forest Foods in a domestic FDA cGMP certified facility;

USE & INGREDIENTS

Tinctures are easy to use, and because they are alcohol based extracts, the active compounds present in them are quickly and efficiently absorbed by the body. Simply add the desired amount to a few ounces of water (or other liquid) and drink.

Pine Pollen is a uniquely potent, natural substance that contains a high concentration of a full spectrum of nutrients, specific anti-aging compounds, bio-available androgen hormones, raw amino acids, vitamins, and minerals, and dense antioxidants, making it the most complete of all "super-foods." Never irradiated and with no fillers or drying agents, you receive a tincture of the highest quality and integrity—only from RAW Forest Foods.
