BEYOND ADAPTOGENIC

## TAPROOT DEEP JING

CLINICAL GRADE EXTRACTS

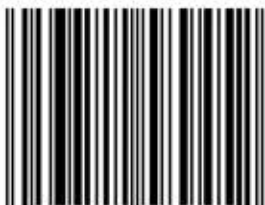

Our TapRoot Deep Jing *Forest Formulations* has been expertly prepared to deeply nourish and restore the vital energy reserves known as Jing—working on a level that is beyond adaptogenic. Jing depletion has been associated with premature aging, chronic fatigue, and poor endocrine function.

This highly concentrated formula contains a blend of organic, wild-harvested, and ecologically cultivated herbs as concentrated and standardized extracts.
